

THE SKIN DANCE COMPANY

Tina Thompson-Pope, Founder/Artistic Director

Based in New York 'SKIN' -The Tina Thompson Dance Company Inc. (a 501(c)3 organization) thrives on being an innovative and creative dance force encompassing an array of talents and styles. SKIN strives to blend distinctive forms of dance with energetic personalities while propelling the art to new horizons. We aim to make dance accessible to everyone and that is why we call ourselves the Dance Company for all. Being fearless and uninhibited through the exploration of movement theory enables SKIN to reincarnate the 'soul' of motion. Through the intergration of many cultures, dance forms and backgrounds SKIN positions itself as one of the leaders in the new era of CONTEMPORARY FUSION. Through this our vision has clearly been established and announced. We explore the relationships between contemporary jazz and modern techniques to provide a conceptualized performance/study for our audience. TTDC performance venues include Tribeca Theatre, Symphony Space, Alvin Ailey Citi-Corp Theatre, International festivals and more.

Led by Founder/Artistic Director Tina Thompson-Pope, SKIN- TTDC was established in 2003 as a vehicle for artistic value and self-expression through the language of dance. SKIN- TTDC seeks to provide the opportunities, challenges and infrastructures for personal growth to its artists, students, community members and future generations to come. As a diverse, four dimensional (physical, mental, emotional and spiritual) performing arts organization, We strive to create and perform choreography based on storytelling and universal themes in a contemporary-fused modern dance style that is accessible and relatable. Through spirit, passion, self-awareness and pride we celebrate the art of DANCE!
