

Marina Shipyard's *Green Policy*

Marina Shipyard is committed to being environmentally aware, actively support programs that reduce our company's environmental impact and continually improve our environmental performance as an integral part of our business strategy and operating procedures.

We seek to change the effects our business activities have on the environment by:

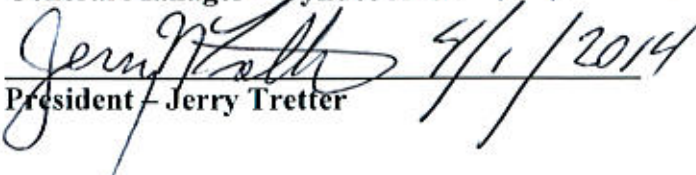

- Reduction of material, water and energy consumption
- Waste minimization
- Recycling of all possible resources

We will encourage our customers, suppliers and tenants to do the same.

We recognize that we have a responsibility to the environment to meet or exceed legislative and regulatory requirements.

We will ensure that this policy and all procedures relating to it are understood, implemented and maintained by all company employees.

General Manager - Cyndee Allen 4/1/2014
