***Preparing you to take the
Association of Registered
Radiologic Technologists (ARRT)
exam and meet the requirements
for a career as an X-ray technician.***

***Certified Limited Scope
X-ray Operator training for
healthcare professionals***

As the healthcare industry continues to grow and with over 80 million baby boomers preparing to retire, the need for multi-skilled healthcare professionals is more urgent than ever.

We are committed to preparing you for the Colorado State Limited Scope Operator ARRT X-ray exam, enabling healthcare facilities to better use your skills and to further develop your career.

LSO training, llc, is an independent company, offering certified classes without having to enroll in a college or university. We are approved and regulated by the Colorado Department of Higher Education, Private Occupational School Board.

Your technician training will prepare you for a career as a member of a diagnostic imaging team in a variety of medical settings.

Receive specialized training in ten weeks, not years.
