

Sat. August 13th 10:00am

This is a fun printing technique that can be used on all types of papers and fabrics

- A great way to create fun backgrounds for mixed media, cards or an art journal.
- It is relaxing, fun and creates amazing results.

Supply list:

Gelli Plate- 5x7 or 3x5 available on Amazon or Gel Press brand from JoAnns . I also love the small round one. It is easiest to learn on the 5x7 but the smaller is fine and cheaper for trying out the technique.

You will want to add sizes once your hooked!

Brayer

Paper towels

Baby wipes- share a large one amongst your friends

Spray water bottle-optional

Lots of papers, copy paper works great

Bring some others types to try, cardstock , tracing paper, book pages, a plain paper journal is a lot of fun. Start your own art journal now!

A fabric surface is optional. Apron, zipper bags work well. I will have a couple on hand for a nominal fee.

Please wear an apron or dress accordingly. This tends to get messy.
