

# **TUMBLERS**

Be sure to carefully inspect each one of your tumblers

Shipping companies have been known to be rough with packages. I inspect each tumbler before they ship out.

I suggest hand washing each tumbler/straw before use, before adding vinyl, or before giving them to your customer. These tumblers can and will get dusty from sitting in my shop.

Tumblers straws are in your box, they are probably wrapped around paper or plastic, The straws will not be inside of the tumblers.
